USPs of Our **Zentrum Connect**

<500ms Performance Overhead Cloud-ready, scalable JSON APIs with industry-leading search speeds - less than 500ms overhead so your customers never wait, never abandon.

Plug & Play Suppliers Activate any supplier from our 100+ network instantly - no months of development, no separate negotiations. Select only the suppliers you need, when you need them.

AI-Powered Search & Hotel Recommendations Leverage AI to deliver personalised hotel suggestions, boost conversion rates, and optimise inventory matching based on traveller preferences and demand patterns.

Smart Analytics & Supplier Performance Dashboards End-to-end visibility across your search-to-book operations - monitor supplier performance, analyse business KPIs, and make data driven decisions in real time.

Cloud-Ready Infrastructure Built for reliability and scale - our cloud-native platform ensures your bookings flow smoothly even during peak demand, with zero downtime risk.

Easy-to-Integrate JSON APIs Developer-friendly JSON APIs designed for fast, seamless integration into your existing booking infrastructure – no need to rebuild your system from scratch.

Multi-Currency & Multi-Culture Support Serve global customers with real-time currency conversions, localised content, & flexible pricing models across multiple markets simultaneously.

Buy | Sell **Optimise**

Buy - Access Hotel Inventory from Top Global Sources

Connect quickly to wholesalers, GDSs, bedbanks, channel managers, and directly contracted hotel suppliers - all through a single API. One integration replaces months of development.

Sell - Distribute Your Hotel Inventory Seamlessly

Sell directly to OTAs, travel resellers, end customers, and other hotel suppliers – alongside your self-contracted hotels – with full control, scalability, and real-time sync.

Optimise – Maximise Performance & Profitability

Optimise your hotel inventory based on enriched content, competitive pricing, high-demand regions, and smarter distribution strategies – backed by live dashboards and KPI analytics.
